University of the Pacific	32	100	32.0%
Pace University	16	55	29.1%
Santa Monica College	105	NA	NA

\*The definition of a "Smart" classroom, or technology-rich learning space, varies by institution. Virtually all contributing institutions include a video-data projector in such spaces, and most use a type of control system to manipulate resources. In some cases, computers may not be provided. However, in each case the numbers are representative of classrooms, not computer labs, specialty labs, etc.

## ABOUT THIS SURVEY

The data in this chart was provided by participants in the CCUMC (Consortium of College and University Media Centers) and DETCHE (Directors of Educational Technology/California Higher Education) mailing lists during Fall 2007 at the request of SDSU Director of Instructional Technology Services James Frazee. The time, consideration and collegiality of all who contributed to this survey is greatly appreciated.
